

LAMPADINE LED 12V

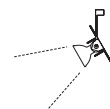

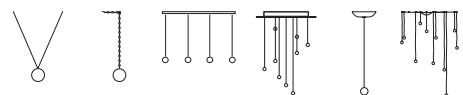

DARDO

Fornisce luce diretta con parabola dicroica orientabile in tutte le direzioni. E' utilizzabile con lampadine a LED. Viene utilizzato per l'illuminazione di accento di quadri, sculture, oggetti, per la casa o ambienti commerciali. E' realizzato in metallo cromato con dispositivi per la rotazione.

Provides direct light with a medium angle dichroic bulb adjustable in all directions. It works with LED light bulbs. It is used when the light beam needs to be directed on paintings, sculptures, objects both in domestic or commercial environments. It is made in chrome steel, provided with rotational device.
